Answer 2: "The CO2 and O2 probes both work... and, yes, they require the least fussing. But I still opt to use the gas pressure sensor. The gas pressure sensor is least expensive. But that aside, when measuring pressure changes, this lab teaches the students more about experimental design than any other lab we do in AP Biology.

Biology Lab Activity 4-5 – DNA Transformation Scientists can insert genes into bacteria. The genes inserted in the Indo-Blu process (this lab) are on a circular piece of DNA called a plasmid. (The plasmid we use is called pBLU®.) The bacteria with the inserted genes are used as factories that produce large quantities of the gene and its product.
