Coronavirus: Delivery, installation and repair information > 'Fibre to the Home' means we'll install fibre cables all the way to your home. There are different ways of installing fibre broadband, depending on what kind of property you live in or whether there's an Openreach modem already installed.

How is 'Fibre to the Home' installed? | BT Help

FTTP stands for fibre to the premises, and essentially refers to fibre broadband that is wired directly to the home instead of a cabinet that services the area (which is referred to as FTTC, or fibre to the cabinet). FTTP, unlike FTTC, uses all fibre optic cables, making it the fastest type of fibre you can get.
