Interim Series

The previous owners have had a lot of trouble with starting the pony engine and I wish to change it out for the starter motor conversion. I run a Cat D7 3T dozer which has the 24 volt starter motor conversion running a Delco Remy 40MT starter motor with the 11 tooth helix gear. Is the conversion plate and the flywheel ring gear the same for the

Update your machine to direct electric start with one of our bolt-on conversion kits. We also offer bolt-on alternators to replace either belt-driven or gear-driven generators. We can supply 12 volt or 24 volt kits (We can even supply a 6 volt alternator if you want to retain your ponymotor!)

Ponymotor Conversions

electric Starter motor assembly An electric starter will take stored electrical energy from a battery (or sometimes a capacitor) and convert it into torque at the starter's pinion gear. the pinion then engages with the ring gear that is part of the engine's flywheel and turns the flywheel that rotates the engine's crankshaft.

The Cat diesel engine comes with a electric fuel shutdown solenoid which is controlled by the key switch. It is located on the Governor/pump assembly [threaded in] with two wires controlling the electro-magnetic on/off function. There's no fuel shut off solenoid on a, the ECM controls the injectors for on/off.
