The tributary system of China, or Cefeng system was a network of loose international relations focused on China which facilitated trade and foreign relations by acknowledging China's predominant role in East Asia. It involved multiple relationships of trade, military force, diplomacy and ritual. The other nations had to send a tributary

Throughout history, non-state actors such as the media, think tanks, and other organisations have continuously played a crucial role in forging closer ties between Taiwan and India. However, if India continues to appease China vis-à-vis its “One China Policy,” relations between New Delhi and Taipei may not be significantly
