Education: Making Ability ...

Developmental Adapted Physical Education is a service area defined by two areas of instructional support. The term Developmental focuses on the outcomes to be achieved by the student, as a result of participation in the physical education program. Each student's unique physical, social, emotional and intellectual development is considered when determining how the outcomes are to be achieved.

Developmental Adapted Physical Education

A student (3-21 years of age) is eligible for developmental adapted physical education when the special education team determines the student has an identified disability of: autism, deaf/blind, developmental disability, emotional or behavioral disorders, hearing impaired, specific learning disabilities, intellectual disability, severely multiply impaired, other health impaired, physically impaired or visually
