gameplay footage. The video is compressed using the lossless Zip Motion Block Video codec.

DOSBox - Wikipedia

MOUNT.COM is a command inside DOSBox that can connect physical folders and drives to virtual drives inside DOSBox. The mounted drive does not automatically refresh files changed outside of DOSBox. You can refresh these files on all mounted drives by activating the Swap Image event (Hot key: Ctrl F4) to have access to changed files automatically when, for example, the drive is mapped as a floppy.
