Here is one of my very first research papers I developed when I took General Biology I Lab. For this report, several aspects of the enzyme amylase (an enzyme that breaks down starch in many organisms) were studied, specifically, the capability to catalyze nutrients in varying conditions such as temperature, pH, pressure, concentration of substrate, among others.

Chicago style is perhaps one of the more complex citation styles because it is really two systems under one name. The Notes/Bibliography system is used mainly in the humanities. The Author/Date style is typically used by those in the physical, natural, and social sciences. The main difference between the two systems the preference for notes (Notes/Bibliography) or parenthetical in-text ...
