Julie G. Pilitsis, MD, PhD, FAANS, is a professor of neurosurgery and neuroscience at Albany Medical College and chair for the Department of Neuroscience and Experimental Therapeutics. She completed her neurosurgery residency at Wayne State University and obtained a PhD in neurophysiology. She went on to complete a fellowship in functional neurosurgery at Rush University Medical Center.

### The Development of Functional Neurosurgery - AANS Neurosurgeon

Abstract. Functional neurosurgery is a neurosurgical procedure done for alleviating symptoms of various central nervous system disorders that do not have any gross anatomical abnormality. Functional neurosurgery needs a well-coordinated multidisciplinary team approach involving neuroanesthesiologists, neurologists, neurosurgeons, neurophysiologists, and neuropsychologists.
