3 General Virology I
Introduction 3/4 Virology
is the study of viruses,
complexes of nucleic
acids and proteins that
have the capacity for
replication in animal,
plant and bacterial
cells. 3/4 To replicate
themselves, viruses
use up functions of the
host cells on which
they are parasites.
3/4 The viral parasite
causes changes in the
cell,

General Virology - World Society for Virology

The 2016 version has just ended, and all the lectures are available as videos, either on YouTube or here at virology blog (where you can also find lecture slides and study questions). It will take some time for you to watch all the videos - each is about 70 minutes long - but the effort will be worth it.
