Wild M8 - MicrobeHunter.com Microscopy Forum

Thanks for your manual and brochure. I would recommend the Leica\Wild Heerbrugg phototubes: 404891 and 180570. I own both of these. The 404891 has better light transmittance in the photo mode. The 180570 loses 50% light transmittance in photo mode but the loss isn't very noticeable. Both of these can be pricey.
