The H60 "2.0" was everything we were hoping for from a refreshed Corsair product and then some. Everything from its noise levels to overall performance has been improved by leaps and bounds. Granted, the intergenerational performance jump isn't extreme, but for \$80 we'd be hard pressed to ignore it.

Hydro Series™ H60 High Performance Liquid CPU Cooler

Hydro Series™ H60 (2018) 120mm Liquid CPU Cooler \$79.99 USD CORSAIR Hydro Series™ H60 Liquid CPU cooler's second-generation design offers powerful, low-noise, liquid cooling. The redesigned fan and low-profile radiator help H60 excel at rapidly drawing heat away from your CPU, all the while looking stylish with its white LED-lit pump head.

Depending on your case and how things fit together, I would either 1) Put the H60 on the front intake and another intake fan below it, the top is passive with no fans, and the rear is the 140mm exhaust; or 2)One fan front intake, one fan rear exhaust, and the H60 as exhaust in the top, just behind the 5.25" drive section in the front of the case.

Fan setup with h60 - The Corsair User Forums

Corsair H70 gets the Editor's Choice at Legit Reviews. The Corsair Hydro Series H70 CPU water cooler is a very nice self-contained water cooling kit that is easy to install and requires no maintenance. The Corsair H70 (Part number CWCH70) was also able to perform significantly better than the Corsair H50 for just a slightly higher price tag.
