Ideal arc MIG welders are optimized for flux-cored and CV processes for use with a variety of wire feeders. Diamond Core Technology delivers a superior arc with a wide welding output range.

MIG Welders | Lincoln Electric

By far the most common and best way to use a Mig Welder is with solid wire and a cylinder of gas. With this configuration, the Mig Welder pours gas over the weld pool as you weld, thus keeping Air/Oxygen from contaminating the weld. Solid Wire + Gas is easier to use and produces better quality welds I've written a separate Blog article called:
