Instructables

Nikon Lens Mount Repair : 7 Steps - Instructables NIKKOR lenses have Central Processor Unit (CPU) contact pins located near the lens bayonet. When a lens is attached to a camera, the pins make contact with electronic contacts inside the camera body. This contact allows power and data to flow between the camera body and the lens. CPU contacts near the

Nikon Nikkor Lense Cpu Repair Manual - nsaidalliance.com

NIKKOR lenses have a built-in Central Processing Unit (CPU). When a CPU lens is attached to a camera, the metal contacts shown below are used to communicate lens information and provide power and instructions to the lens from the camera. The number of CPU contacts varies between lenses. CPU lens on the left and non-CPU lens on the right.

Technical Service Advisory for Users of the 1 NIKKOR VR 10 ...

Its optical formula largely remained untouched until the introduction of the Nikkor-P•C 105mm f/2.5 Auto in the early 1970s. The newer optical formula was perfected by Wakimoto Zenji's prodigy, the original Sonnar-type design was replaced by a Xenotar-type design that's more widely known now as the "Gauss" version. The later "Gauss" variant can be easily identified by its lens ...

For a zoom lens you can specify the end points of the focal range, It was interesting to note that all Nikons could display apertures such as f/1.0, f/1.1, f/1.2, or for that matter, f/95, even though no CPU-enabled Nikkor lens has been made with such values.

CPU-modification of Nikkor lenses

The contacts do not protrude enough. Glue a shim in place first to confer the appropriate stand-off, then the CPU, thus ensuring electrical contact. The contacts protrude too far, risking damage to the camera and/or CPU. Remove metal from the barrel to 'countersink' the CPU appropriately.

Nikon, however, seems to love their old lenses as many of us do. Thus, on many modern, albeit higher-end Nikons, there exists a menu option in the SETUP Menu called Non-CPU Lens Data. If your camera has this, it means you can pair your old lenses and breath life back into them for use with your current body.
