Arguably the most suitable position for pin bars is absolute swing points! The absolute highs and lows on a chart relative to recent price action make up for great locations to trade pin bars.

How To Trade Pin Bars: Three Best Locations For Pin Bars

The Pinbar trading strategy If 200ma is pointing higher and the price is above it, then it's an uptrend (defining the trend). If it's an uptrend, then wait for the price to come to your area of value (it could be SR or dynamic SR). If the price comes to an area of value, then go long when you see a bullish Pinbar (or price rejection).

The Pinbar Trading Strategy Guide

Once you've determined that you have a pin bar that has pushed a little bit through a key resistance level, the bar will give you three trading strategy opportunities. You can enter on the close of the pin bar candle. This will allow you to trade with a smaller stop loss, but with a reduced probability of success.

The Pin Bar is very different from other reversal candlestick chart formations because it is a bar/candlestick with a long tail or wick, a very short body. It looks like this: The Pin Bar is a price action reversal pattern and when it forms, it clearly shows that the price was rejected by the market at a certain price level or point.

The Pin Bar Forex Trading Strategy

As an R-multiple, the break of pin bar nose entry becomes a 1.1R, while using the 50% entry becomes a 3.25R. If risking \$100, that's about a \$110 profit using the break of pin bar nose entry strategy and approximately a \$325 profit risking the same \$100. That's why I prefer the 50% pin bar entry; it's powerful!

Pin Bar Entry and Exit Strategies - Daily Price Action

The pin bar formation is a very valuable tool in your arsenal of Forex price action trading strategies. The best pin bar strategies occur with a confluence of signals such as support and resistance levels, dominant trend confirmation, or other 'confirming' factors.
