The Social Construction of What? Duke W. Austin, PhD This teaching and learning activity illustrates how categories such as race are socially constructed. During the activity, students practice social construction.

### The Social Construction of What?

Social constructionism is the theory that people develop knowledge of the world in a social context, and that much of what we perceive as reality depends on shared assumptions. From a social constructionist perspective, many things we take for granted and believe are objective reality are actually socially constructed, and thus, can change as society changes.
