Bibliomania: Bibliomania gives readers over 2,000 free classics, including literature book notes, author bios, book summaries, and study guides. Free books are presented in chapter format.

## Usmc Manual For M1 Garand

The M1 Garand is a .30-06 caliber semi-automatic rifle that was the standard U.S. service rifle during World War II and the Korean War and also saw limited service during the Vietnam War. Most M1 rifles were issued to U.S. forces, though many hundreds of thousands were also provided as foreign aid to American allies. The Garand is still used by drill teams and military honor guards.

There were two versions of M1C scopes - the M82 with a tapered post reticle, and the M81 with a cross-wire reticle. Primarily the M82 was used to turn select M1 Garand rifles into very effective longer range (600 to 800 yards) sniper rifles. However, some were also mounted on Remington Model 1903A4 Springfield pattern bolt-action .30/06 rifles.

The manufacturer's manual for your shotgun should tell you all of the information you need to know about what kind of shells you need. The main difference between longer shells and shorter shells has to do with the amount of pellets/gunpowder it can hold. Obviously, if you have a longer shell then you will be able to hold more pellets, which ...
