Underneath the convoluted language in GMAT word problems are really just simple math concepts. It is easy to get lost in the words and fail to see the manageable math equations. The GMAT rarely asks questions that are simple and straightforward. Expect problems that require you to convert complex written statements into variables and

I began by working through the 2020 Official Guide for GMAT because many people recommend that this is the best source. While I agree that the questions are most similar to the real GMAT (since they use questions from past exams), I wasn't able to learn the concepts from simply doing hundreds of questions.
